

Cruise Suspensions Due to COVID-19

American Cruise Lines has always operated in the best interests of our guests, crew, Travel Advisors, and community partners. Our resolve to honor that commitment is genuine, with the safety of everyone aboard our ships and in the communities we visit as our highest priority.

The disruptions caused by COVID-19 have necessitated that we suspend cruises departing from March 14 through May 17, 2020. This decision was made proactively by American Cruise Lines for the safety of everyone aboard and has recently been reinforced by government recommendations.

Cruises with embarkation dates from March 14, 2020 through May 17, 2020 are suspended.

Affected guests with a reservation at the time of suspension will receive their choice of Cruise Vouchers equal to 125% of all amounts paid for their Cruise Package, or a full money-back refund. Cruise Vouchers can be applied to any future 2020 or 2021 Cruise Package. For Cruise Voucher details, please [click here](#).

Our cruise specialists are currently contacting guests and Travel Advisors on the suspended cruises. Guests are asked to make a selection within ten days of notification of the suspension. If you are booked on one of these cruises, please contact us at **800-894-8570** for assistance or to make your selection.

It is our honor to show guests the most amazing destinations across this great country, but it is also our duty to operate responsibly within it. We greatly appreciate their support, loyalty, and patience.
